

CASE STUDY D

Abu Dhabi's PPP Regulatory Framework

Context & Challenge

Abu Dhabi Government sought to develop a “investor friendly” infrastructure PPP development program which would promote efficient and effective collaboration between the public and private sectors.

To do so, they required a clear legislative PPP policy framework to support Government departments and private sector investors with the procurement and tendering of PPP projects in a transparent, timely and efficient manner.

Solution

Carew & Bennett partnered with Allen & Overy to design, develop and draft Abu Dhabi Governments PPP procurement regulations and its PPP procurement manual (known as the Partnership Projects Guidebook).

“the PPP procurement framework is considered one of the most advanced in the region and consistent with international best practice”
